## Has Arrived In Boone!

### Satellite Storage Facility

The Boone County Landfill has again partnered with Metro Waste Authority's Regional Collection Center to bring area residents the opportunity to properly dispose of household hazardous wastes. The Satellite Storage Facility located at the Boone County Landfill will accept household hazardous materials from residents within the Landfill's primary service area when the waste cannot otherwise be held until the next mobile collection event (i.e., move-outs, move-ins, estate clean-outs.)

Call the Boone County Landfill at (515) 433-0591 for more information or to schedule an appointment. Appointment times are limited so it is recommended that you call as far in advance as possible,
